HANDMADE IN AUSTRIA

We design and produce high-quality table football tables, which are individually created and manufactured to match your corporate design. Each table is therefore an exclusive unique piece.

Table football tables from Bankhamer Design are a combination of innovative design, sophisticated materials, highly-skilled craftsmanship and guaranteed fun – „HANDMADE IN AUSTRIA“.

The football tables are available in 2 versions:
PREMIUM EDITION,
EXCLUSIVE EDITION

YOUR TEAM WINS ...

...if you create space. Create team spirit.
A hint of the Silicon Valley mentality emerges.

Come together. Laughing together. Action. Clear your head. Activate yourself.
And at the same time increase identification with the company.

BODY

With the choice of cladding, the body can be perfectly adapted to your company's corporate design or your personal taste. Whether real wood, painted surfaces, Corian, stone: everything is possible.

PLAYING- FIELD

There are also countless possibilities for the playing field. Whether classic in lawn look, coordinated with your corporate design or matching your individual ideas. Together with the body, this results in a unique and unmistakable look.

PLAYERS

The game figures are lovingly and with the highest precision manufactured. By means of a special injection moulding technique they are cast directly onto the chrome-plated rods. This means that there is no predetermined breaking point as is known from conventional screwed figures. Play figures are available in 14 different colours.

HANDLES

The handles are the connection between player and game pieces. Ergonomically shaped, available in aluminium, anodised or bright chrome-plated. Combined with genuine leather and decorative stitching.

COUNTER

The counters are mounted on the body or flush mounted and combined with the sliding bars. Even more exclusive are our goal counters with patented TIP-ON system. With this variant, the cubes move out of the body flush with the surface. This particularly elegant design is available in wood or aluminium, anodised or chrome look.

BEARING- BODY

The bearing housings consist of an ingenious retaining system. Integrated high-tech ball bearings with reduced frictional resistance and 19 highly polished steel balls form a perfect unit together with the plastic bearing housing. In the more exclusive version, the bearing housings are also available in chrome or aluminium look.

TAILOR MADE

Every football table has its own character. With the Tailor-Made program we can also realize unusual wishes, such as lighting of the Playing field and logo, extendable cup holders and personal engravings.

„A perfect Christmas present from our management and also „Raiffeisen-branded“. The modern wood design matches the furniture in our staff room. A good opportunity to take a break from the daily routine during a small match.“

Employees of Raiffeisenbank Region Ried

DIE MACHER *Mag. David Böhm*
DAS WIRTSCHAFTSMAGAZIN *Macher Media House*

„The processing and thus the branding effect is unique. A short match in between activates, creates a good mood and connects. It's hard to imagine our place without the table.“

„This great piece enriches the living room immensely. Time and again it is the center of a social exchange, is very functional and looks very good on top of that“.

Fam. L.

*Helmut Katherl
Managing Director*

„Absolutely great thing, didn't think it would be used every day. It's only logical that it would be beneficial to my team.“

*CEO Wolfgang Deschberger
Automobile Deschberger*

„With this exclusive table football table, fun and entertainment for our customers is guaranteed.“

*Erich Schober
CEO KUKA CEE GmbH*

„The table football table was a surprise for our employees when they moved into our new company building. The branding makes it an absolute eye-catcher and the first internal tournament is already being planned.“

„Designed as a noble piece of furniture and in the AGS colours, this football table fits perfectly into our new company building. As a balance or as a good way to clear your head in between.“

*Walter Kohlbauer
CEO AGS Engineering*
